

The background of the slide is an aerial photograph of a landscape. The left side shows a flat, brownish-tan area with sparse green vegetation. The right side shows a more rugged, hilly area with reddish-brown soil and some green patches. A semi-transparent dark grey rectangular box is overlaid on the left side, containing the title and authors' names.

International Boundary

- International Boundary should stay stable (usage in QM tool!)
- NMCAAs are not allowed to make any changes on these boundaries on their own:
We don't aim to find the legally defined international boundaries. We do need pragmatic solution how to represent the boundaries in medium scale for the products EBM and ERM.

International Boundary

- Valid version for EBM 2020 and ERM 2020: ELF IB Regional 2020
- In case of issues (international boundaries and/or connecting features)
 - Contact: ebm@bkg.bund.de
 - Changes of IB or CFPs have to be accepted by neighbouring countries!
 - Changes for IB have to reach BKG at latest in January 2019 to be valid in EBM/ERM 2020
 - Changes for CFPs can be accepted until June 2019
