

EGM

Review of 2018 production Update plan for 2019

Clément Godin,
Noémie Grémeaux (IGN-France)

Technical Meeting of EuroGeographics Data Producers Zagreb, November 6th, 2018

Content

- Production year 2018
 - EGM in the Eurostat update programme
 - Status of production
- EGM production 2019
- EGM Validation platform

Production year 2018

EGM v11.0 and v11.1

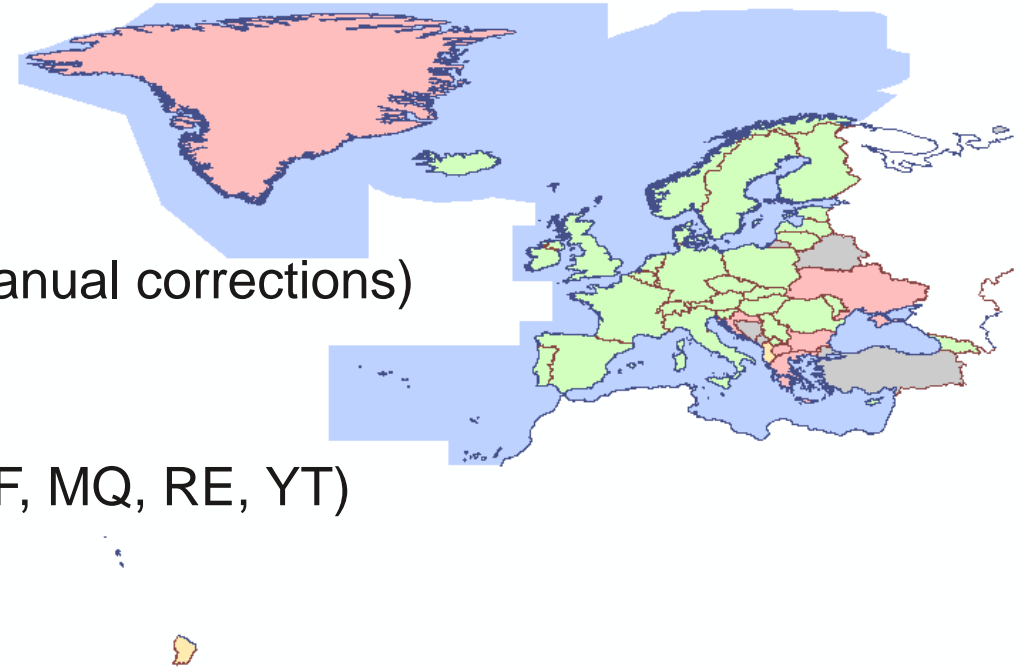

EGM update programme

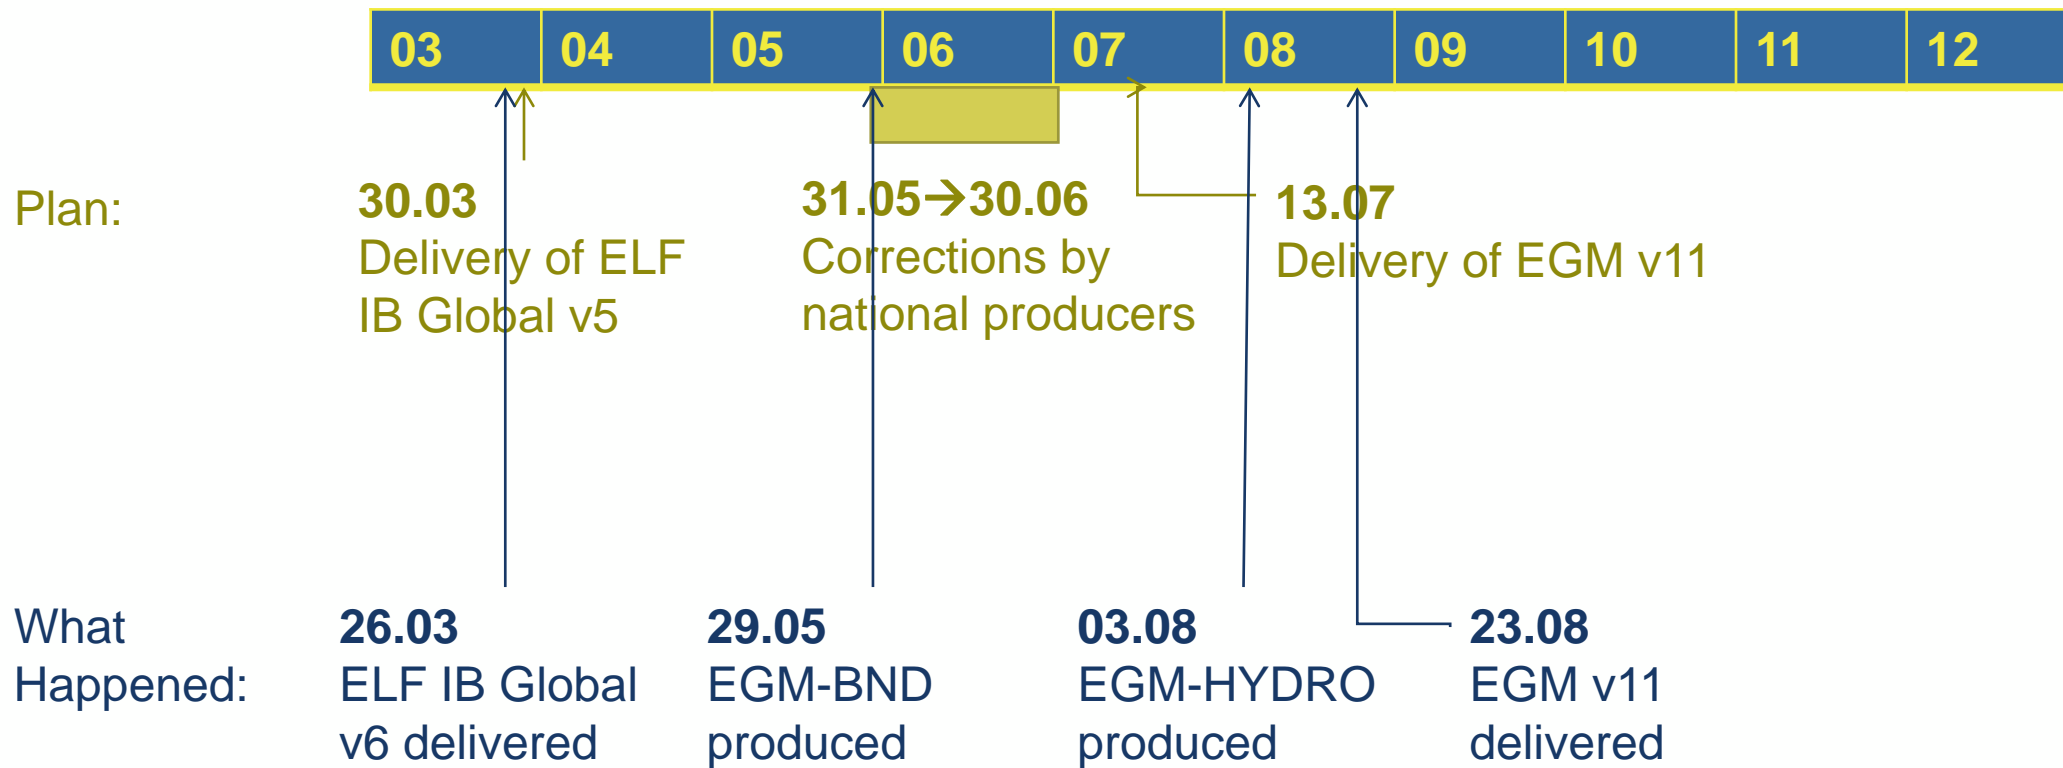

Production year		2015	2016	2017	2018
Delivery to EG		Dec. 2015	Oct. 2016	Sept. 2017	Aug. 2018
EGM version		8.0	9.0	10.0/10.1	11.0/11.1
Input versions	EBM	9.1	10.1	11.1	12.1
	ERM	8.1	9.1	10.1	11.1
EGM themes	BND	✓	✓	✓	✓
	HYDRO		✓		✓
	TRANS	✓		✓	✓
	POP	✓		✓	

What's new in EGM v11?

- Updated themes
 - BND
 - HYDRO
 - TRANS (fully automatic production, without manual corrections)
- New territories (BND only)
 - Albany (AL)
 - French overseas departments (BL, GF, GP, MF, MQ, RE, YT)
- Not updated data
 - BG, GL, GR, HR, MK, MT, UA
- New feature class: NUTS3
 - More about that later...

Delivery of EGM v11.0

Production years 2019-2022

New contract: EGM update programme

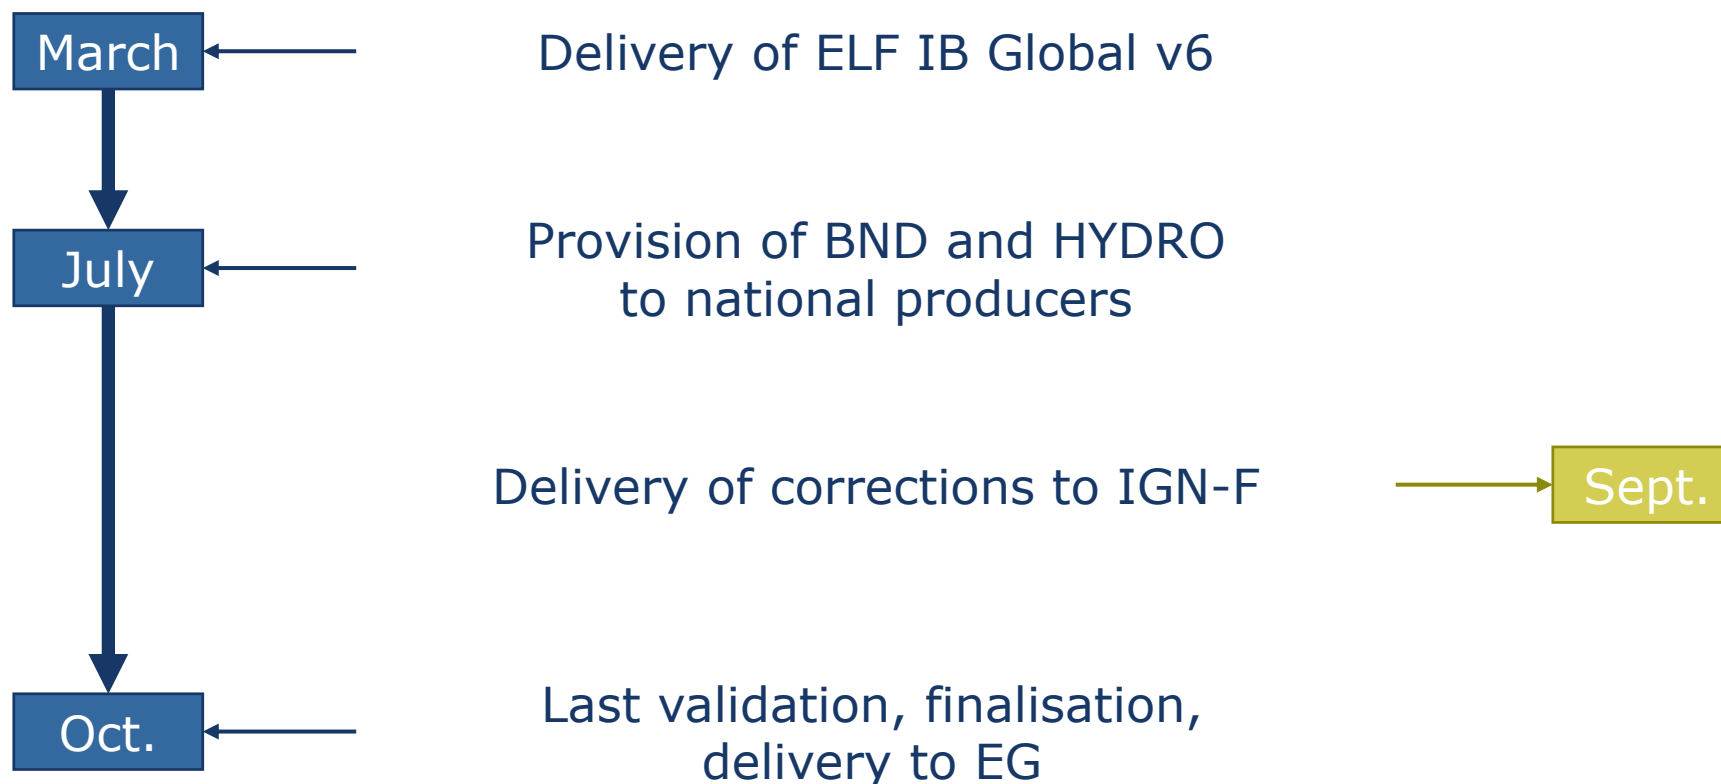

Production year		2019	2020	2021	2022
Delivery to EG		Oct. 2019	July 2020	July 2021	July 2022
EGM version		2019	2020	2021	2022
Input versions	EBM	v13.1	2019	2020	2021
	ERM	v12.1	2019	2020	2021
EGM themes	BND	✓	✓	✓	✓
	HYDRO		✓		✓
	TRANS	✓		✓	
	POP	✓	✓	✓	✓

...if the contract is signed

Themes for production of EGM in 2019

- BND
 - Based on EBM v13.1 (released in April 2019)
 - Will contain NUTS3 feature class
- TRANS, POP
 - Proper update
 - Based on ERM v12.1 (released in April 2019)
- Coverage increases
 - French overseas departments (French Guyana, Guadeloupe, Martinique, Saint-Barthélemy, Saint-Martin, Réunion, and Mayotte)
 - Croatia
- Not updated data
 - BG, GL, GR, MK, MT, UA

Timetable for production of EGM in 2019

New contact

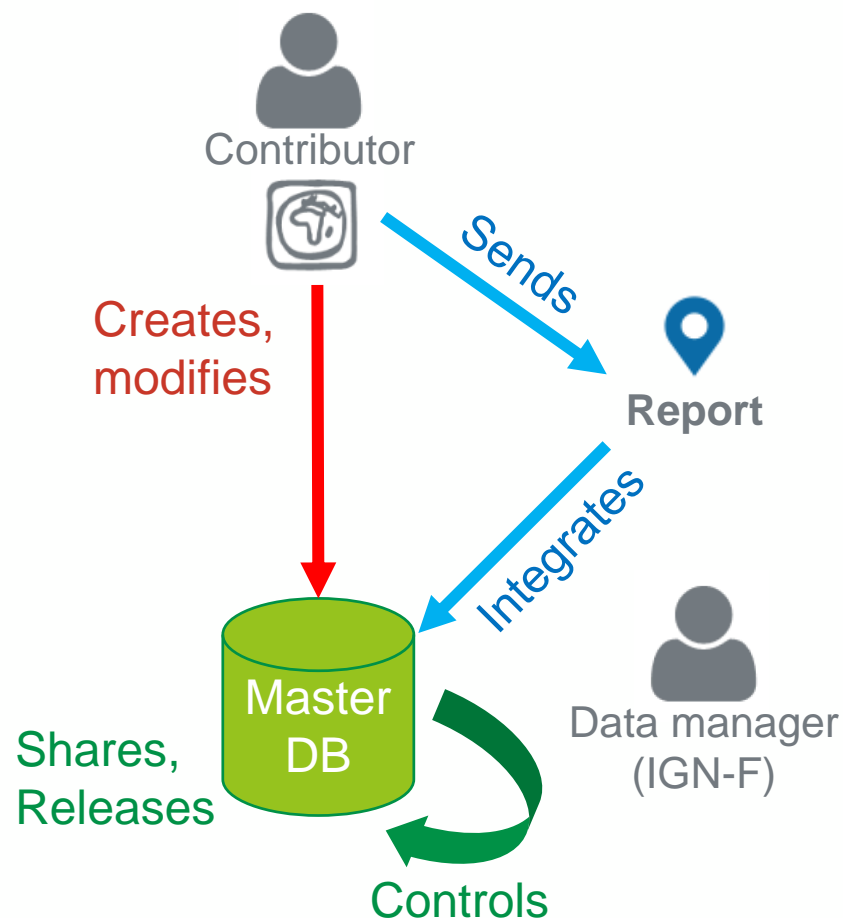

- When you want to write to IGN-France about EGM, you may use this new email address:
 - EGM@ign.fr
 - Please use it for either information about EGM, a question about the data, or during the workflow
 - Both Noémie and Clément will receive it (or our successors)
- We invite you to use it to tell us about errors you might have noticed on your national territory

EGM Validation Platform

Producing EGM with producers

Collaborative update process for IGN-F's BDUni

- New production approach for our national master dataset
→ more and more input from other partners is included.
- Two types of contributions:
 - **“Reports”**:
 - Simplified contribution: one point + a few attributes.
 - Need to be validated and integrated by an expert.
 - **“Direct contribution”**:
 - The data is directly modified by the partner.
 - IGN-F may control it afterwards.

“Private collaborative space” for our partners

Partners can have their own private space within IGN-F's Collaborative space:

- Their data is stored on IGN-F's system.
- Their own partners can access and interact with the data using the common collaborative tools (reports and/or direct contribution).

The screenshot displays the IGN-F collaborative space interface. On the left, there are three main sections: 'Lier à un groupe' (linked to 'SDIS81'), 'Choisir un thème' (selected 'SDIS81'), and 'Décrire le signal' (with a text input field and a note 'Veuillez saisir au moins 10 caractères'). The central part of the interface shows a map titled 'Placer le signal' with a search bar 'Rechercher un lieu, une adresse'. The map displays various fire hydrant locations with labels like '004167 103 m3/h', '004396 104 m3/h', and '004400 120 m3/h'. On the right, an 'Objet' (Object) form is open, showing a table of data for a specific hydrant. The table includes fields like 'numero_long', 'cs', 'commune', 'nom_epci', 'type_hydrant', 'numero_adresse', 'adresse', 'etat_start', 'pression', 'debit_1bar', 'date_pesee', 'date_recoops', and 'Etiquette'. The data for the selected hydrant is as follows:

Field	Value
numero_long	004403
cs	ALBI
commune	ALBI
nom_epci	CA de l'Albigeois
type_hydrant	poteau_incendie
numero_adresse	21
adresse	RUE DE LA BERCHERE
etat_start	1
pression	3
debit_1bar	77
date_pesee	2016-05-11
date_recoops	2015-05-26
Etiquette	Saisir un nom

At the bottom of the form, there are two buttons: 'Copier l'objet dans le croquis' and 'Annuler'.

A private space as EGM Validation platform

- **Why?**

- Following our 2016 survey.
- So that you can report generalization errors or directly correct your national data.

- **When?**

- English version to be released in June 2019.
- Please try and use it for the next production.

- **How?**

- More information coming at the beginning of 2019... 😊
