

The background of the slide is an aerial photograph of a residential area with houses and trees. Overlaid on the top right is a semi-circular map showing several triangular regions. Two of these regions are highlighted: one in blue and one in yellow, representing NUTS3 administrative boundaries.

 - What is it?
 - Where are we at?

Update on NUTS3 within EGM and SALB activity

NUTS3

- During 2017 and 2018, work started by Kadaster and then IGN France to create a new NUTS3 them for EGM
- Eurostat had asked for this, and we have also had enquiries from other customers of EGM
- Best practice is to include it within our generalisation process from EBM
 - Means we can control and manage this
- Make it available as part of EGM, under existing license
- Has been included in offer to Eurostat
- Expected delivery is 2019

UN boundary information initiative

Harmonised European open data from official national sources is to be included in the United Nations Second Administrative Level Boundaries (SALB) initiative.

EuroGeographics, provided its 1:1 million scale topographic open dataset, EuroGlobalMap to assist the project's aim of compiling global administrative boundaries data from authoritative sources.

Mick Cory, presented the dataset to Mr Kyoung-Soo Eom, Chief, Geospatial Information Section, United Nations (right) and Mr Anthony O'Mullane, Director, Information and Communications Technology Division, Department of Field Support, United Nations GGIM7 in August.

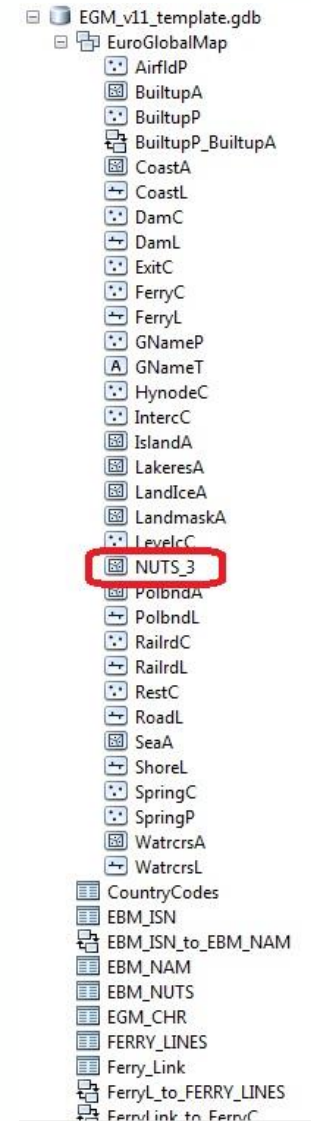

NUTS3

Update within EGM

EGM v11.1: NUTS3

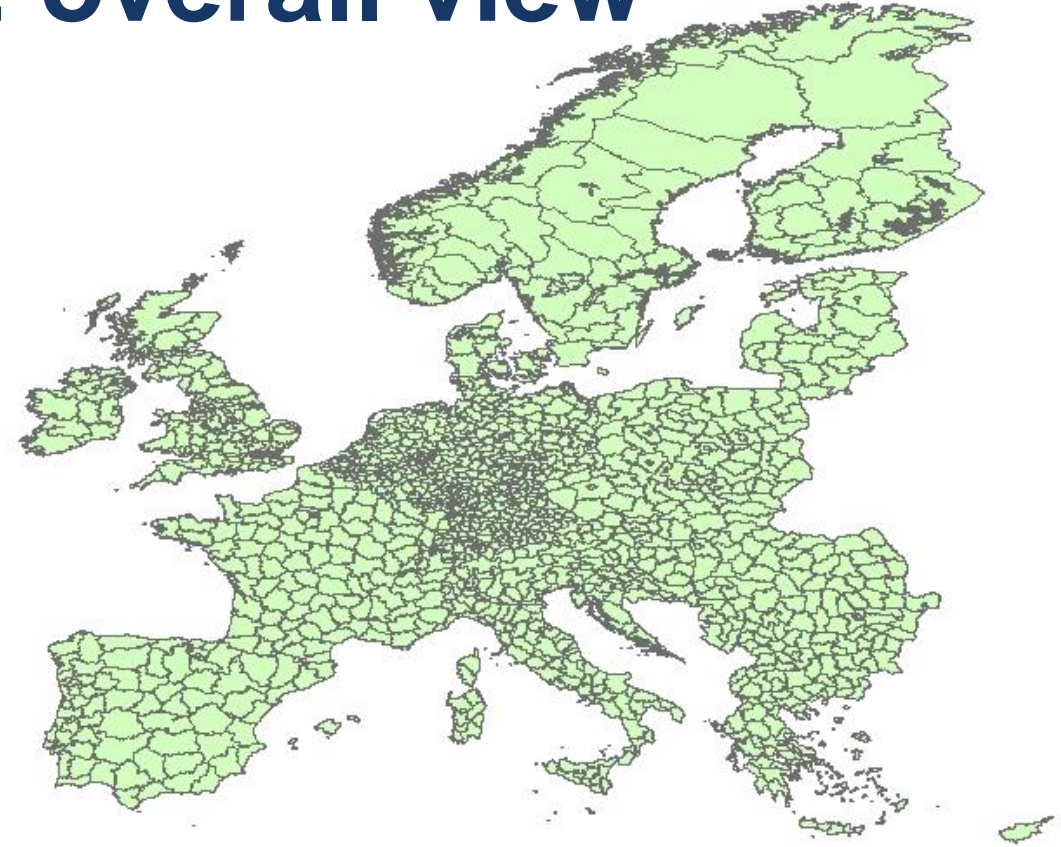

- Eurostat wants NUTS3 feature classes at different scales (from 1:1,000,000)
- EuroGeographics approach: incorporate a new feature class in EGM
- October 2018: a prototype is produced
- End 2018: release of a new version of EGM (v11.1)

Prototype of EGM.NUTS3: overall view

- Borders consistent with PolbndL
- Scale 1:1,000,000
- $\pm 3,000$ polygons
- Same attributes than EBM.NUTS3

OBJECTID *	Shape *	inspireId	beginLifespan	ICC	NUTS_CODE	NUTS_LABEL	TAA

This map displays the administrative regions of the Baltic Sea area, categorized by country and color-coded as follows:

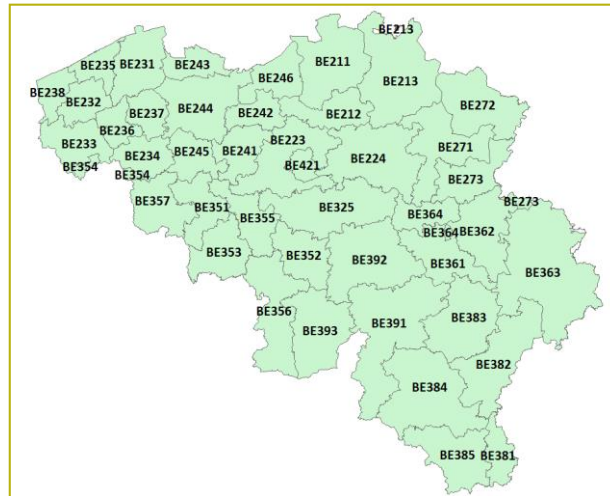

- Denmark (DK):** Regions include DK050, DK042, DK031, DK013, and DK022.
- Germany (DE):** Regions include DEF0D, DE80M, DE80K, DE80L, DE80J, DE80N, DE935, DE93A, DE934, DE40F, DE40D, DE40I, DE405, DE409, DE40E, DE40C, DE300, DE408, DEE04, DEE0D, DEE07, DEE08, DE914, DE931, and DEE00.
- Poland (PL):** Regions include PL428, PL427, PL411, PL418, PL417, PL431, and PL432.
- Sweden (SE):** Regions include SE232, SE211, SE213, SE212, SE221, and SE224.

Consistency with PolbndL

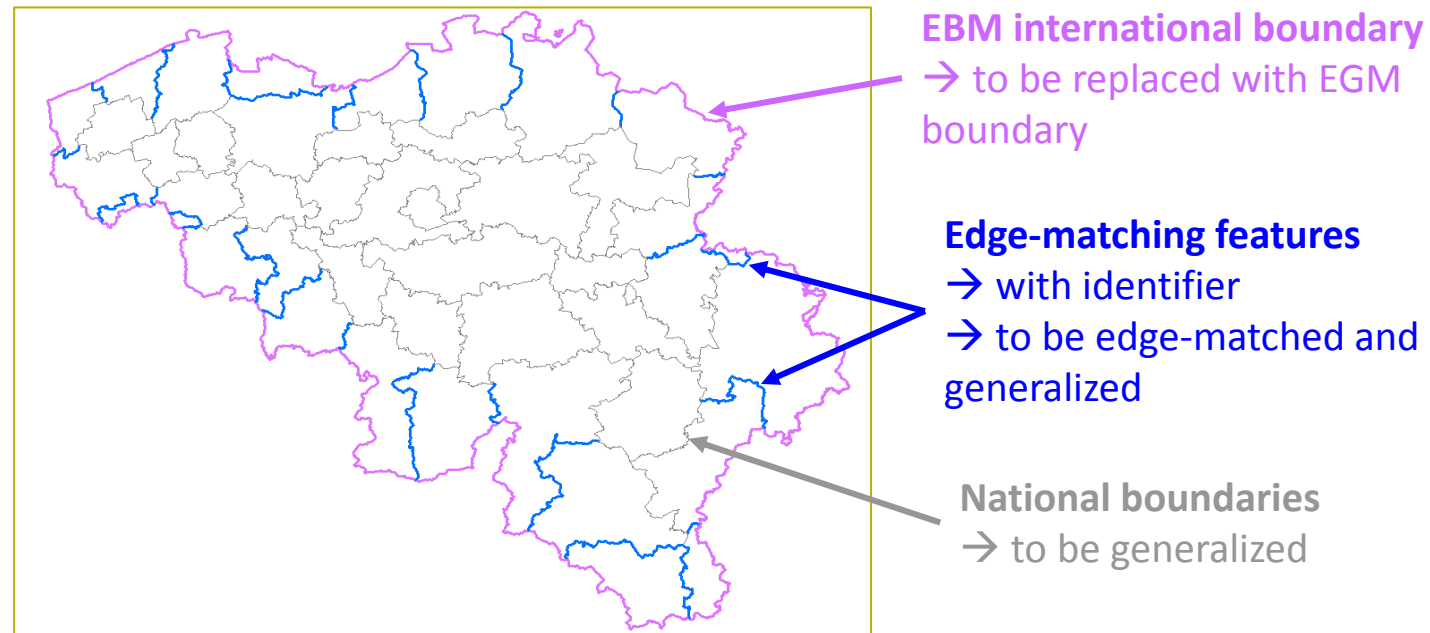

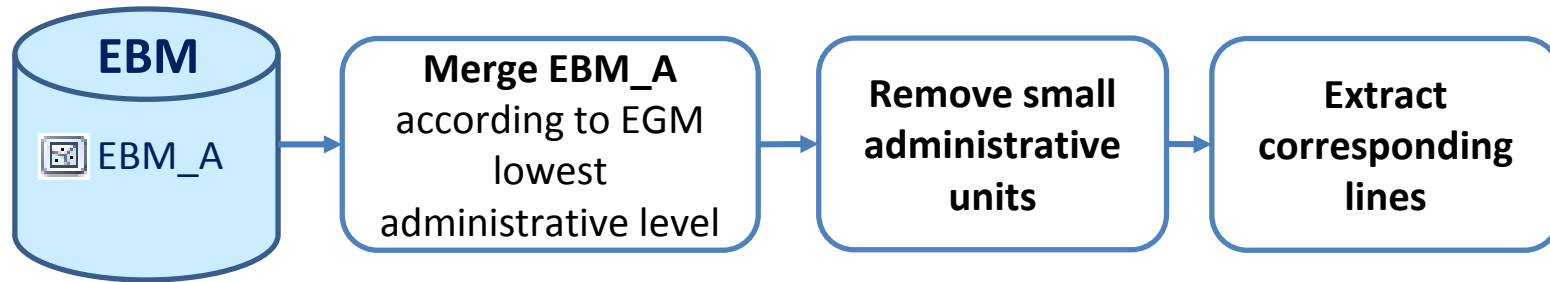

PolbndL
USE
— International
— Primary/1st order
— Secondary/2nd order
— Tertiary/3rd order
NUTS_3

EBM to EGM generalization process – Step 1

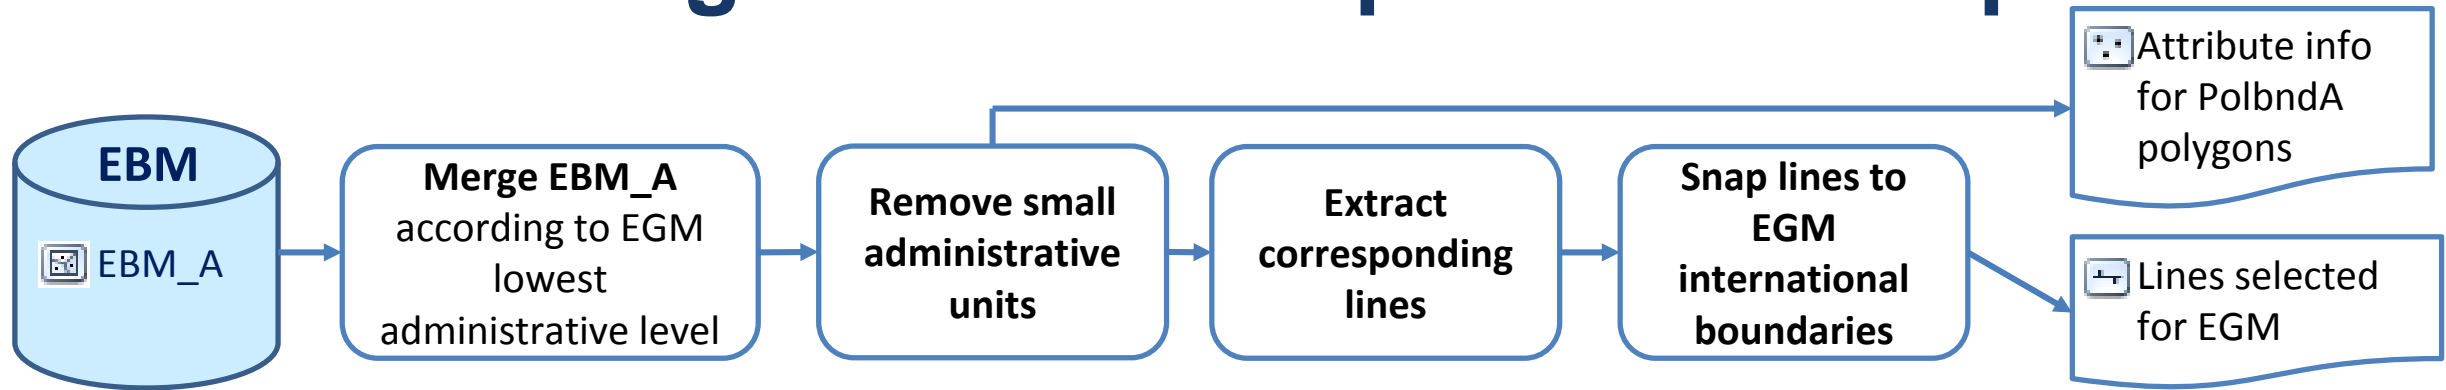

EBM to EGM generalization process – Step 1

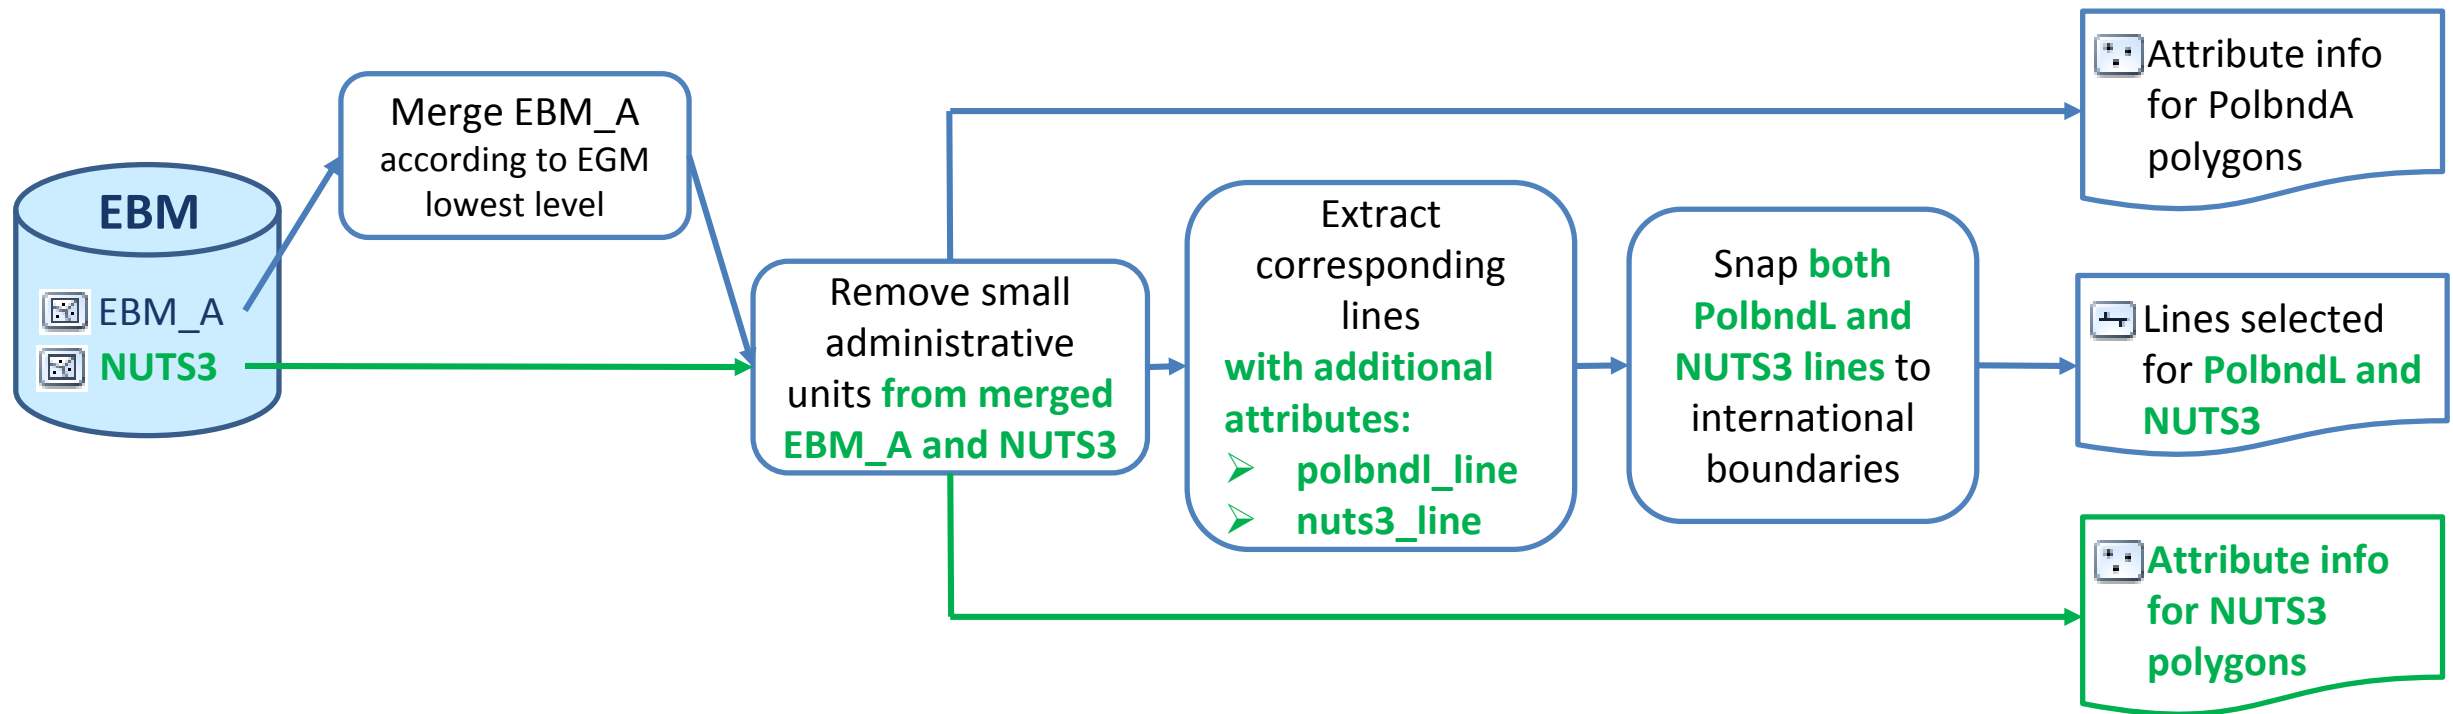

EBM to EGM generalization process – Step 1

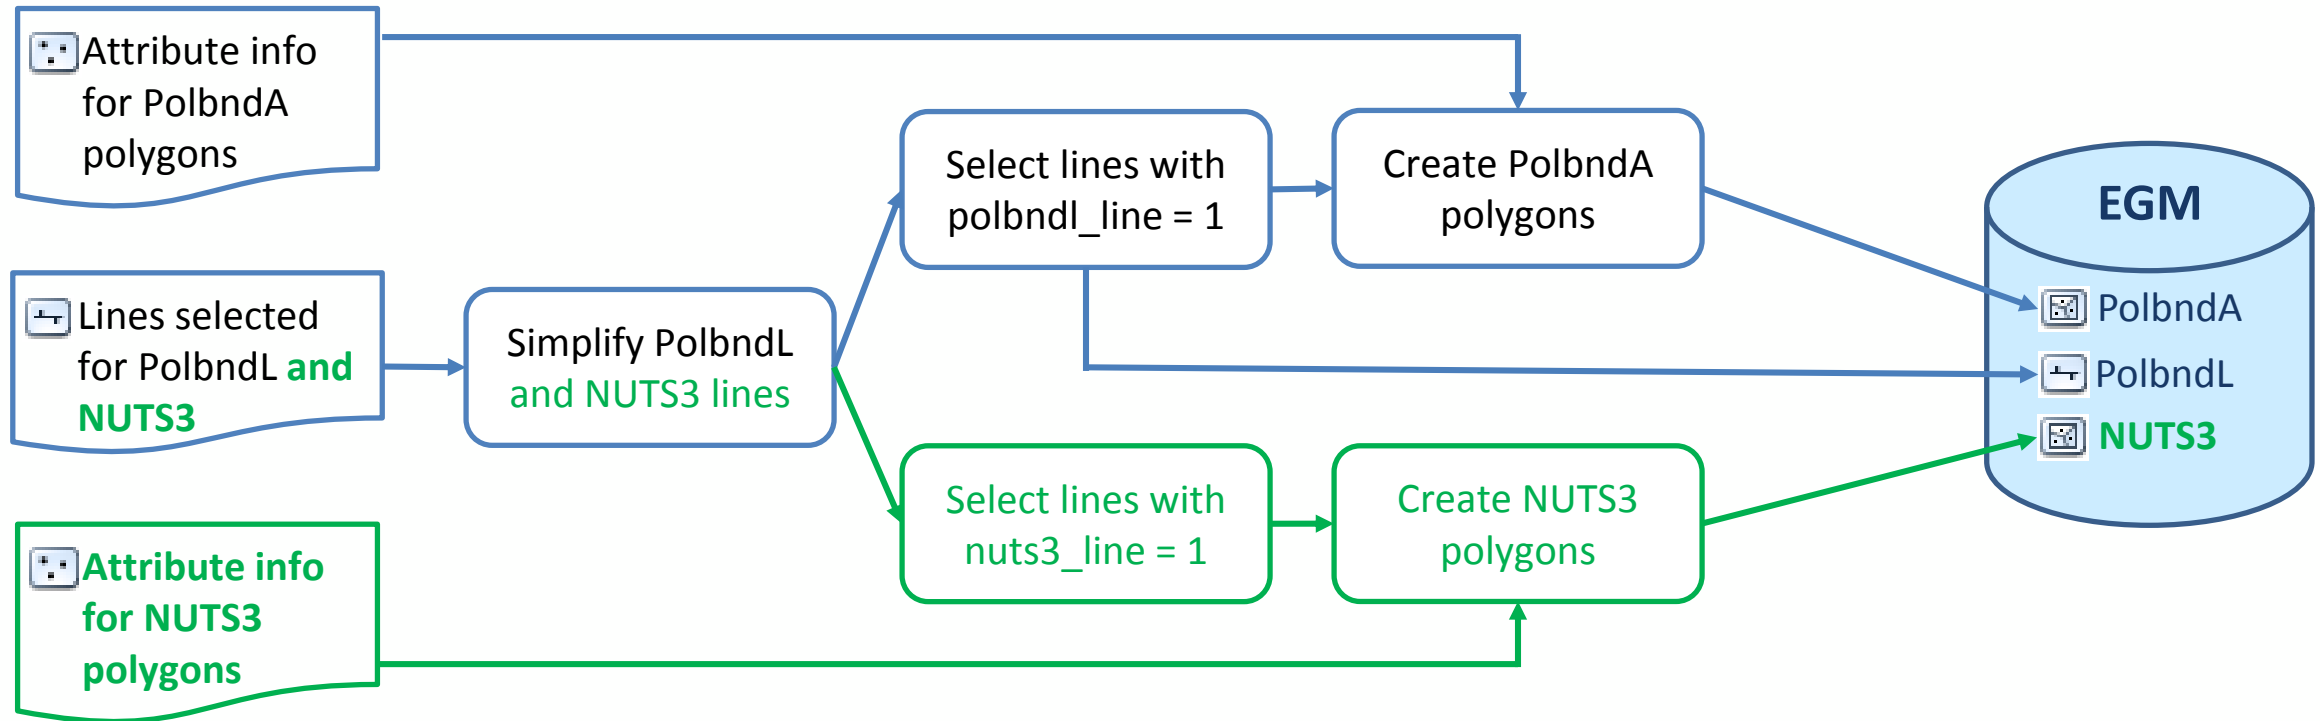

EBM to EGM generalization process – Step 1

Integration of NUTS3 into Step 1

EBM to EGM generalization process – Step 2

Results

PolbndA

NUTS3

- Total workload: approximately 15 days (including testing and validation).
- Some slight adjustments still needed.
- EGM v11.1 should be ready by the end of November.

SALB project

Another EGM Product

Comparability EG-SALB

To be clear about what we call **first** and **second level** in this presentation

Description	Examples	EBM	EG Id	SALB Id
National level	-	AdministrativeUnit_1	SHN0	ISO3CD
First level	“Bundesland” (AT) “Regione” (IT) “Province” (ND)	AdministrativeUnit_2	SHN1	ADM1CD
Second level	“Bezirkshauptmannschaft” (AT) “Provincia”/”Città Metropolitana” (IT) ? (ND)	AdministrativeUnit_3	SHN2	ADM2CD

Specific cases

- Germany
 - Second level (*Regierungsbezirk*) incomplete
 - Using the third level (*Landkreis* and *kreisfreie Stadt*) instead
- Northern Ireland
 - National and first levels (*Province*) identical
 - No third level
 - Using the fourth level (*Local government district*) instead
- Serbia
 - First (*Autonomna pokrajina*) and third levels (*Grad*) incomplete
- Switzerland
 - Second level (*Bezirk* and *Wahlkreis*) incomplete

Which countries meet SALB requirements?

Category	%	SALB
Lowest level in EGM is the second level or lower AT, BE, DE, ES, FI, FR, GB, GR, HU, IE, IT, LT, ND, PL, PT, RS, SK, UA	33	✓
Lowest level in EGM is higher than the second level AL, BG, CH, CY, CZ, DK, EE, FO, HR, LI, LU, LV, MD, MK, NL, NO, RO, SE, SI	35	✗
Only national level in EGM AD, GG, GI, GL, IM, IS, JE, KS, MC, MT, SM, VA	22	✓
No administrative level in EBM (and EGM) BA, BY, GE, ME, RU, TR	10	✓

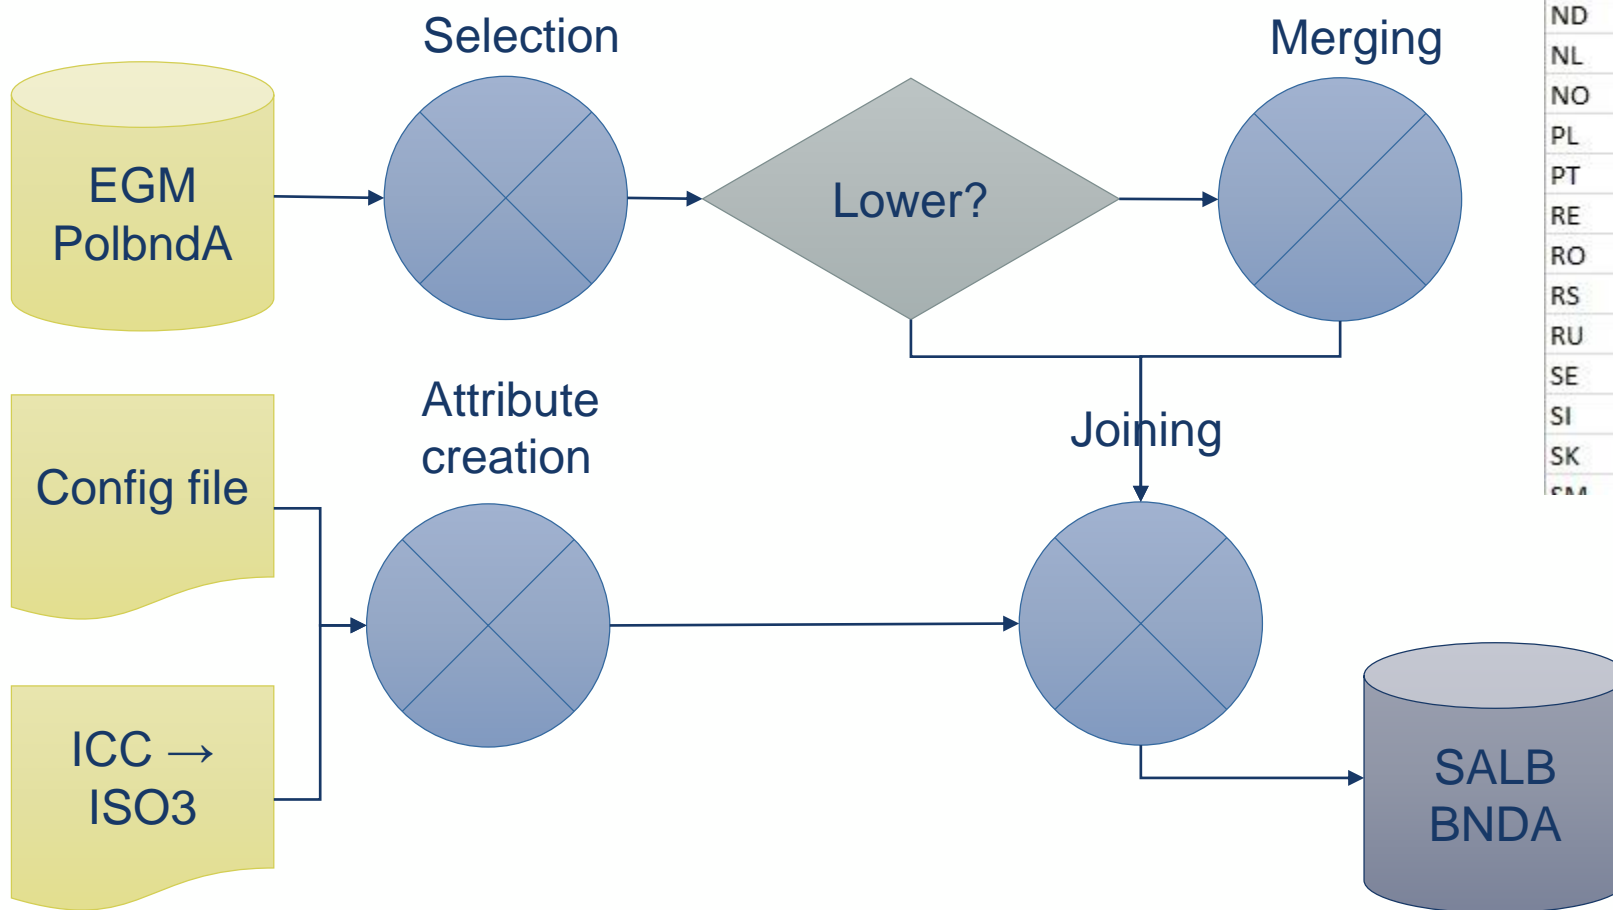

CZ will be in this categorie from EGM v11.1

EuroGeographics' position: we don't add extra levels in EGM

Short description of the SALB product

- BNDL (administrative boundary)
 - ISO3CD (ISO country code 3)
 - BDYTYP (type)
- BNDA (administrative unit)
 - ISO3CD (ISO country code 3)
 - ADM1NM (administrative unit level 1 name)
 - ADM1CD (administrative unit level 1 code)
 - ADM2NM (administrative unit level 2 name)
 - ADM2CD (administrative unit level 2 code)
 - DATSOR (date of source)

Studied workflow

ICC	ISO3CD	Name
MK	MKD	The Former Yugoslav Republic Of Macedonia
MQ	MTQ	Martinique
MT	MLT	Malta
ND	GBR	Northern Ireland
NL	NLD	The Netherlands
NO	NOR	Norway
PL	POL	Poland
PT	PRT	Portugal
RE	REU	Réunion
RO	ROU	Romania
RS	SRB	Serbia
RU	RUS	Russian Federation
SE	SWE	Sweden
SI	SVN	Slovenia
SK	SVK	Slovakia
SM	SMR	Republic of San Marino

ISO-3166 alpha 3 country code

Identified problems

- The SHNs give a national number; the ADMxCD is also the ISO code for the representation of names of the subdivisions of the countries (ISO 3166-2).
 - How do convert the SHNs into those?
- How to deal with in-dispute areas and *terra nullius*?
- The names in Latin alphabet follow another transcription rule.

Language	National form (NAMNx)	Form without diacritics (NAMAx)	Romanised form (ADMxNM)
English	Sutton	Sutton	Sutton
French	Midi-Pyrénées	Midi-Pyrenees	Midi-Pyrénées
German	Köln	Koln	Köln
Icelandic	Rangárþing eystra	Rangarthing eystra	Rangárþing eystra
Greek	Δυτικής Ελλάδας	Dytikis Elladas	Dytikís Elládas
Bulgarian	Търговище	Targovishte	Tăgoviște

What remains to do

- Get in touch with the SALB team at the UN
 - Produce another prototype
- Keep in mind the UN use our data!
