ERM production

- Production of this year (Trans, Pop, Veg)
 - > not many issues
 - > point of attention: please deliver in ERM template!
 - > RC: most countries delivered on time 😊
- Production of next year (Hydro, Pop)
 - > creation of new international Hydro IDs (CZ) – ID generator
 - > RC: probably new face for validation of data

Questions about given presentations

- Reference date of EBM (PL/BE)
- Open Gazetteer (SK)
- Metadata (CH)

New ERM validator tool (beta)

- Used by all countries (except for CH)
 - > next to Data Reviewer or national tools
- In general: happy with new tool
- Problems / issues:
 - > N/A or N_A (PL)
 - > WatercrsL < 1600m (BE)
 - > IntercC / LevelcC (PL / CZ)
 - > cluster tolerance (BE)

Communications

- Production Management System (PMS)
 - > all countries have access (except for Belarus)
 - > contacts are up-to-date
- BKG-ftp server
 - > all countries have access (except for Belarus)
 - > used for data exchange
- No additional knowledge exchange needed

Thank you for your attention!
