

# Production EGM 2019

Clément Godin, IGN-France

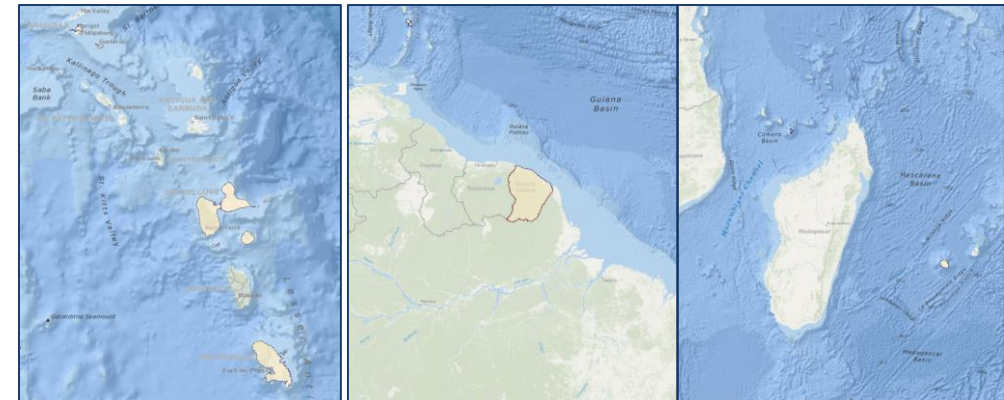

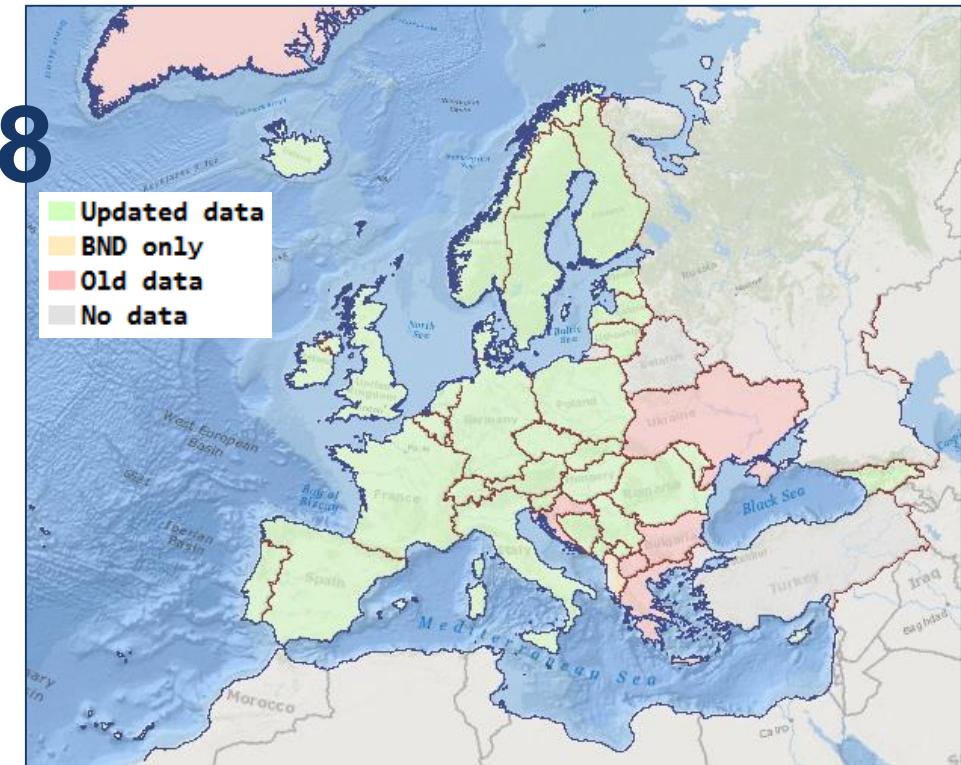

**Webinar of the EG Data Producers to kick-off production**  
**March 20<sup>th</sup>, 2019**

# Content

- Review production year 2018
  - Production year 2019
  - EGM Validation platform
- 

# Review production year 2018

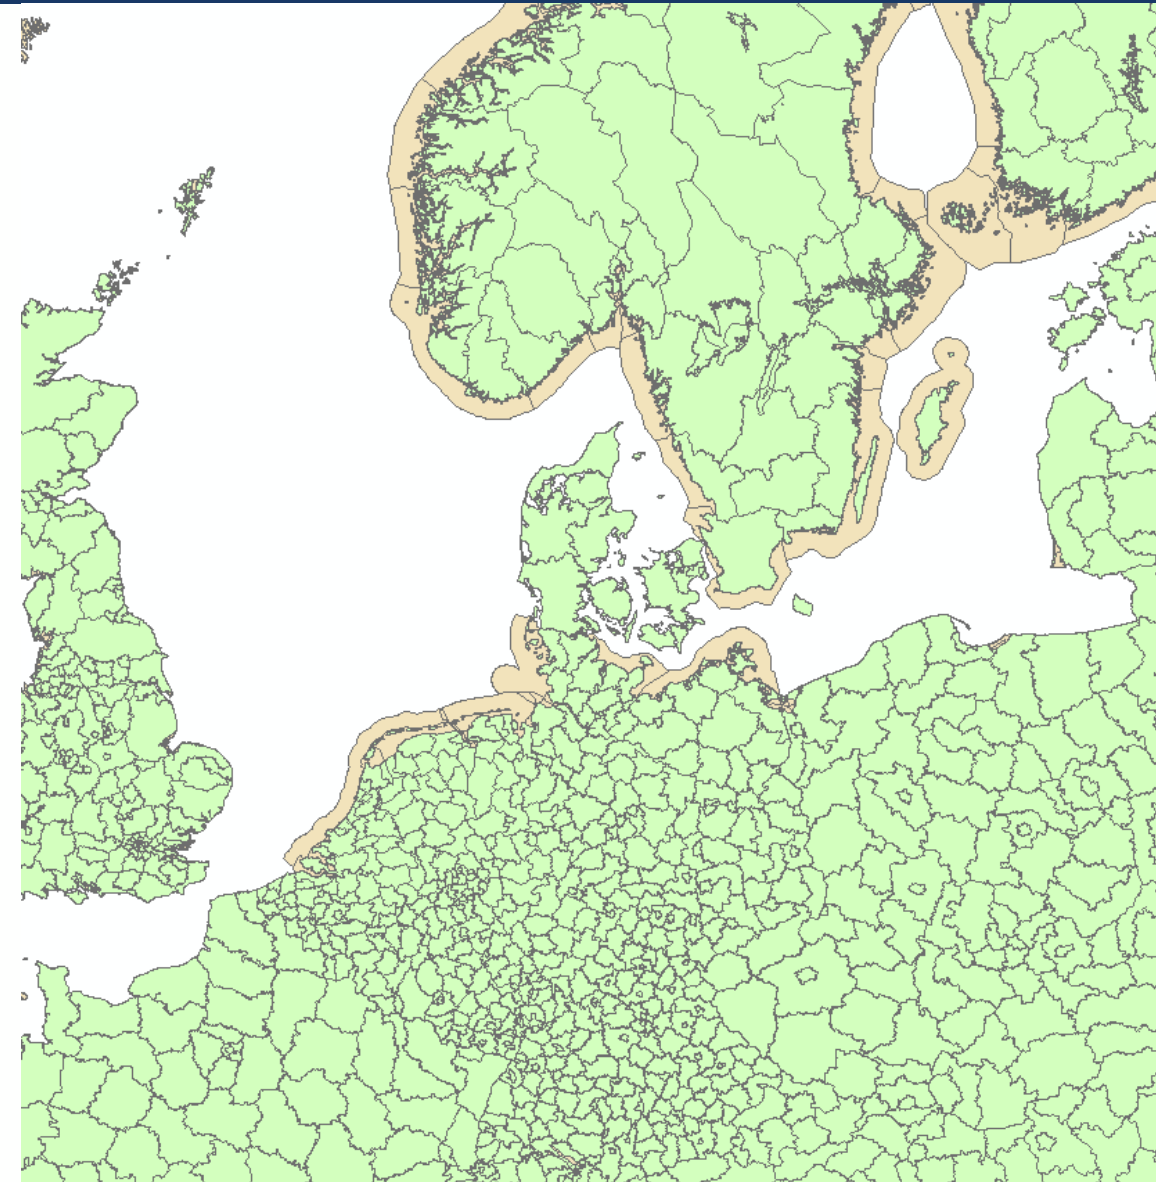

- New data for EGM (BND only)
  - Albany, French overseas
- Updated EGM themes
  - BND, HYDRO
  - TRANS  
(fully automatic production, without manual corrections)
- Not updated data
  - BG, GL, GR, HR, MK, MT, UA
- New feature class: NUTS\_3
- Ready for delivery
  - October 2018 (v11.0)
  - March 2019 (EGM 2019)

# EGM.NUTS\_3

- Borders consistent with *PolbndL*
- Same attributes than EBM.NUTS\_3
- Some inconsistencies on GB coastline

NUTS\_3  
 PolbndA

# Production year 2019

- Production of EGM will go on as usual, synchronised on production of EBM and ERM

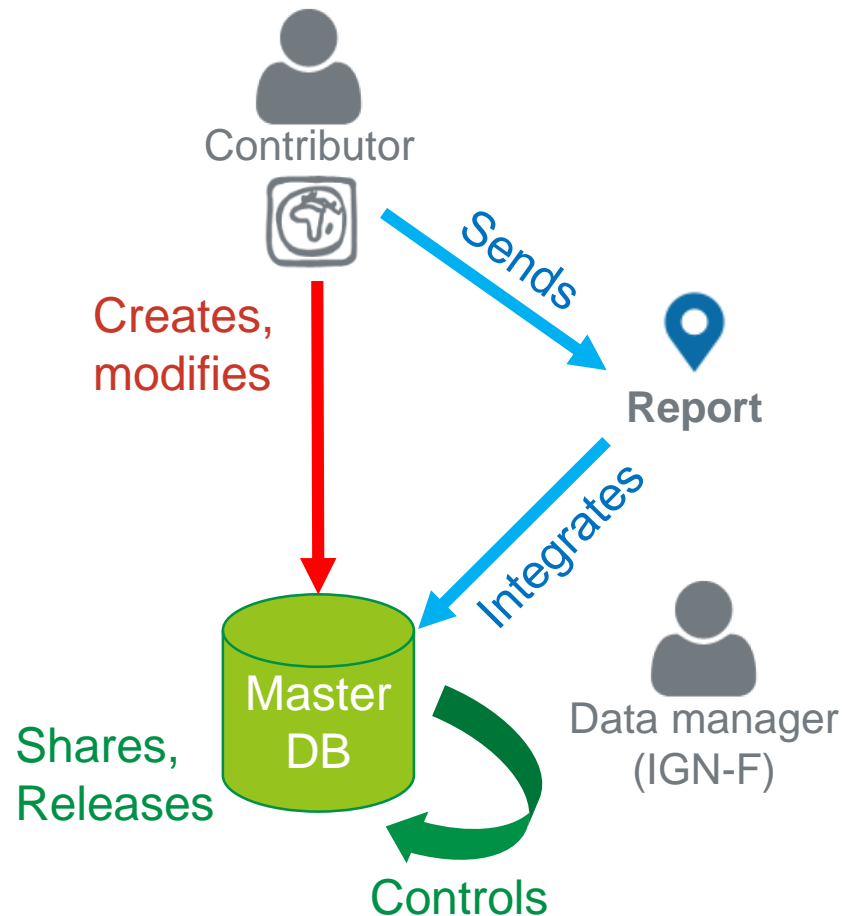

Production year		2019	2020	2021	2022
Delivery to EG		Oct. 2019	Aug. 2020	Aug. 2021	Aug. 2022
EGM version		<b>EGM 2020</b>	<b>EGM 2021</b>	<b>EGM 2022</b>	<b>EGM 2023</b>
EBM/ERM input versions		2019	2020	2021	2022
EGM themes	BND	✓	✓	✓	✓
	HYDRO		✓		✓
	TRANS	✓		✓	
	POP	✓	✓	✓	✓

# Themes for production of EGM 2020

- BND
  - Based on EBM 2019
  - Will contain NUTS\_3 feature class
- TRANS, POP
  - Proper update
  - Based on ERM 2019
- New data provision
  - BND only: GL, MT
  - TRANS and POP only: GR, HR, UA
  - French overseas
  - North Macedonia
- Not updated data: BG

# Collaborative update process for IGN-F's BDUni

- New production approach for our national master dataset  
→ more and more input from other partners is included.
- Two types of contributions:
  - **“Reports”**:
    - Simplified contribution: one point + a few attributes.
    - Need to be validated and integrated by an expert.
  - **“Direct contribution”**:
    - The data is directly modified by the partner.
    - IGN-F may control it afterwards.

# “Private collaborative space” for our partners

Partners can have their own private space within IGN-F's Collaborative space:

- Their data is stored on IGN-F's system.
- Their own partners can access and interact with the data using the common collaborative tools (reports and/or direct contribution).

# A private space as EGM Validation platform

- **Why?**

- Following our 2016 survey.
- So that you can report generalization errors or directly correct your national data.

- **When?**

- English version to be released in summer 2019.
- Please try and use it for the production 2019.

- **How?**

- We'll provide a manual.

# Timetable for production of EGM 2020

# Contact

- When you want to write to IGN-France about EGM, you may use this new email address:
  - [EGM@ign.fr](mailto:EGM@ign.fr)
    - Please use it for either information about EGM, a question about the data, or during the workflow
    - Both Noémie and Clément will receive it (or our successors)
- We invite you to use it to tell us about errors you might have noticed on your national territory

Gracias
