

The background of the slide is an aerial photograph of a city, likely Madrid, showing dense urban development with many buildings featuring red-tiled roofs. A network of white lines is overlaid on the right side of the image, connecting various points across the city, symbolizing a knowledge exchange network. The text 'Knowledge Exchange Networks: Activity Report' is written in white, bold, sans-serif font, with 'Activity Report' in italics, over a semi-transparent dark blue rectangular area on the left side of the image.

Knowledge Exchange Networks: *Activity Report*

- To ensure that Knowledge Exchange Networks continue meeting the needs and expectations of the Members, the review consulted with:
 - Heads & Directors of Member Organisations, Member Organisations, KEN Chairs and EGHO Team
- The review confirmed and strengthened our view that members do indeed find them very valuable and are an essential membership benefit
- KENs are seen as a priority activity for EuroGeographics
- Suggested improvements were a direct result of the review. By taking action and striving to improve the KENs EuroGeographics will ensure their relevance and value for members now and in the future.

Improvements:

- Organise workshops or conferences
- Enhance secretariat support by EGHO to KENs
- EuroGeographics Website
- Streamlining the KENs
- Barriers to participation

Plan is to implementing some of these suggestions in the next 1 – 2 years

Improving the benefits of Knowledge Exchange

Areas of improvement which the EGHO team are working on short, medium and long term. Some of these new actions are being carried out this year, and include:

- Encouraging the KEN Chairs to draft and share KEN strategic plans on a regular basis
- Broadening the scope for Knowledge Exchange during the Extraordinary General Assembly plenary session
- Organising a Development and Funding Workshop in collaboration with external partners as a side event to the Extraordinary General Assembly
- Organising a Workshop on Disruptive Technologies as a side event to the Extraordinary General Assembly
- Include searchable functionality to the new EuroGeographics to enable members to better discover the wealth of KEN knowledge and experience stored in the website
- Acknowledging the contribution and work of the Chairs to the success of the KENs they lead

Knowledge Exchange Networks - a valued benefit of EuroGeographics membership
