- **Positive** steering group meeting in April
- Very open about what **datasets** they were interested in for **future activities**
- Pleased with the **coverage** work that had been **achieved**
- Positive indication about **future contract**

Production

- Many thanks to Croatia and Turkey for the progress they have made in data supply
- EGHO will continue to focus on supporting members to supply data
- If you need support in providing data, technical or otherwise please contact me

Data Producers

- Held a very successful **Data Producers event** in Amsterdam in Sept 2016
- Ran a **survey** with all data producers in November 2016
 - The majority of data producers feel they have the **correct skills** to work on our products
 - Data producers feel one physical meeting is enough but would like **more technical support** specifically on data quality
 - The PMT are meeting mid May and will discuss the topics for a **webinar series** for Data Producers
- Next Data Producer event is **November in Lisbon**, please save the date!

EuroGlobalMap – Open Data

- Excellent number of users
- Over 6300 unique downloads
 - Over 2000 Educational Users
 - Over 1000 Business Users
- Downloads not slowing down!

What are our aims for 2017?

- Customers;
 - To **maintain** and **build** on the existing customer base
 - To continue to **build on our relationship** with Eurostat to deliver to their requirements and needs
 - Focus on **potential new** Pan European **customers**
- Production
 - Continue to work effectively with our **Production Management Team and our Data Producers**
 - Run a **successful** Data Producer **event** in November
 - Further our work on **increasing coverage**

Agenda

European Products update, *Regine Elling, EuroGeographics Production Manager*

Use cases from customers:

The use of (geo)data for policy assessments & outlooks, *Johan van der Schuit, PBL Netherlands*
