Co-operation & Collaboration

Leuven

May 2017

Good Morning!

BI KEN

- **Interoperability** is the ability to work with other systems or products or frameworks without the requirement for special effort on the part of the customer.
- **What Does that Mean?**

BI KEN

What are we interested in?

Licensing

Licensing Fees

Terms and Conditions

Pricing

National Policy

Regional Policy

International Law

Market Conditions

Political Agendas

User Needs

Value Creation

Societal Change

Business Models

Technology

Education

Sales and Marketing

New uses for data

BI KEN

Greater co-operation?

Will this increase participation?

How do we achieve this?

How do we ensure success?

What do we want to see?
