

Change in Production Management Team

Regine Elling, BKG

EG Producer Meeting, Amsterdam

14th/15th September 2016

Changes to the Production Process

- Nov 2015: PSCG used our annual meeting to have a brainstorm
- Aims:
 - Review how production had grown organically over the last few years
 - Identify the pressure points by product and inter-product dependencies
 - Look at ways these could be solved
 - Identify a more streamlined process
- Technical producers were briefed in a webinar in March 2016
- We have this meeting to meet with you face-to-face
- Key message is that we need a harmonised products and our production process reflects this:
Generalisation between products (EBM to ERM to EGM
→ 1:100,000 to 1:250,000 to 1:1,000,000)

Thanks

- Previous Production Management Team

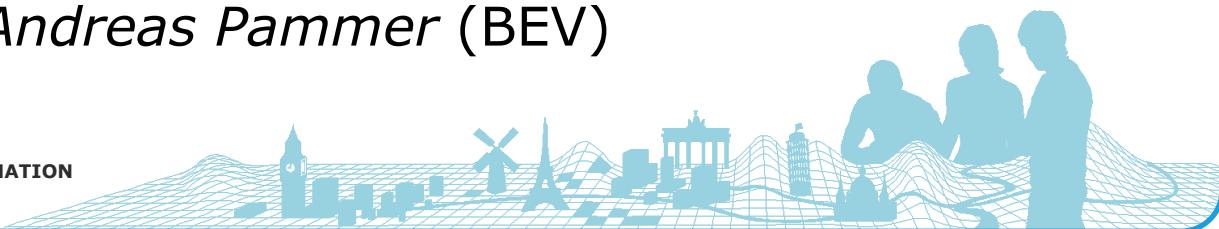

A word cloud centered on the word 'thank' in various languages. The word 'thank' is in large blue letters. Surrounding it are numerous other words in different languages, each with a small cluster of text below it. The languages include English, German, Spanish, French, Russian, Chinese, Korean, and many others. The text is in a variety of colors and sizes, creating a dense and colorful collage.
