

# Break out session – group D

Andreas Pammer / BEV

Technical Meeting of the EG Data Producers, 31.3.2015

Participants: AT, DE, CZ, HU, PL, SI, SK

# General Problems / Issues / Questions

- Everything is clear
- We discussed the ERM workplan

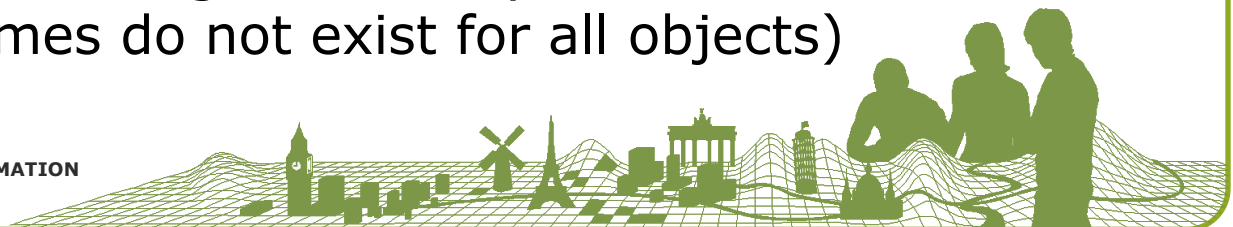

# EBM – ERM-BND

- How will you proceed this year?
  - Group D will follow the preferred workflow:  
EBM -> ERM  
consistency with other ERM layers: SI, CZ, SK,  
DE, PL, AT, ?RS?  
no consistency: HU
  - Aggregation of BND?  
Answer from Marcus Brühl: “Will be done by  
BKG. RCs shall only send BND that is not  
identical to EBM”

# Quality Issues

- Feed back corrections of all levels
  - need feed back report! We should set in place!
- Completeness
  - Will be improved where possible (e.g. SI – Heliport, RS)
  - If possible drop certain optional FCs where no data exist!
- Requirements from old EC contract
  - NMCA's improved as good as they could but do not have data (e.g. Names do not exist for all objects)

# Tool Issues

- Who uses Tools?
  - ArcGIS Reviewer
    - YES: AT, DE, CZ, SK, PL, SI
    - NO:
    - ??? : HU, RS
  - C# tools
    - No country uses them
- Issues
  - C# do not work properly
  - C# installation does not work well (needs adaptations)
