4. What is your experience of participating in previous funded projects/programmes?

Very positive

Positive

Not so good

Bad - would not like to do it again

5. Please describe in a sentence why your experience was positive or negative. (1/2)

- knowledge exchange
- strengthen and coordinate cooperation between NMCAS
- At the end, after much work and bureaucracy, little result
- Helped us modernize our equipment
- administrative burden
- Acquisition of new skills and expertise
- We got lost of new values.
- Good Experience from other countries
- including transfer of knowledge.
- A lot of documentation...
- Experience and know how
- We struggled to find the appropriate resources to meet our obligations for some projects. However we also have positive experiences of other projects. Depends!
- Positive because by the result of common work the NMCA gained benefits. And the staff gained expertise and experience.

5. Please describe in a sentence why your experience was positive or negative.
(2/2)

- Positive: sharing experiences. a governmental authority
- Negative: administrative burden.
- Basis for good cooperation
- Good opportunities for innovation and sustainability.
- Because it is only way how my institution can fund development of new services and new solutions. This is not sustainable at all
- Meeting people Being able to fund projects we would have not been able to do otherwise
- Too bureaucratic
- The workload is usually high, but the innovation usually welcome
- additional resources for faster achieving some results but usually too much bureaucracy
- none, we are
