- Ministry of Environment and Urban Planning General Directorate of **Land Registry and Cadastre (TKGM) in Turkey.**
- Existing member: Ministry of National Defence, General Command of Mapping – 'we think that the membership would be very beneficialthe participation of LR & C will enrich our works in the framework of EuroGeographics significantly'. (8 Dec)

EuroGeographics Strategy

Strategic Objectives

- 1) Provide the voice of our members
- 2) Develop the network of members
- 3) Deliver an operational ELF to support realisation of the ESDI
- 4) Facilitate access to members' data and expertise
- 5) Grow our network of members
- 6) Ensure that the association continues to develop its role and has a sustainable future

Our purpose is: *'to further the development of the European Spatial Data Infrastructure through collaboration in the area of geographic information, and the representation of the EuroGeographics' membership and its capabilities.'*

Our vision is of a European society which makes decisions informed by our members' accurate, authoritative and quality-assured land and geo-information data, services and expertise.

Our Mission is to maintain a network which helps each member to improve their competencies and role; to facilitate access to our members' data, services and expertise; and to provide a strong voice for our members.

EuroGeographics AISBL – Activities

The European Location Framework

Commitment to the ELF

- **Articles of Association**
- Medium Term Plan
- Strategy 2014 - 2020
- Annual Operating Plans

Achieve interoperability of our Members' national land and geographic information, including the realization of a European Location Framework (ELF) to provide Europe and the EU with a valuable information asset to support its long term strategies;

Commitment to the ELF

- Articles of Association
- **Medium Term Plan**
- Strategy 2014 - 2020
- Annual Operating Plans

Key objectives for EuroGeographics are to:

- facilitate the process of providing European reference data and services based on our members data;

Commitment to the ELF

- Articles of Association
- Medium Term Plan
- **Strategy 2014 - 2020**
- Annual Operating Plans

Deliver an operational European Location Framework to support realisation of the European Spatial Data Infrastructure

Commitment to the ELF

- Articles of Association
- Medium Term Plan
- Strategy 2014 - 2020
- **Annual Operating Plans**

Develop the European Location Framework

The ELF vision

- The ELF White paper
- A geospatial reference infrastructure
 - ★ Interoperable data and services
 - ★ Full coverage of Europe
 - ★ Supporting international standards and INSPIRE
 - ★ Quality assured
 - ★ Management of national data

Implementation strategy for ELF

- 1. Successful completion of the ELF project**
- 2. Acceptance by the NMCAs and EuroGeographics on the technical, legal and administrative output of the project as a basis for future services**
- 3. Establishing organisational arrangements to deliver ELF services**
- 4. A positive Business Case including sustainable financing to support the service**

Your benefit from ELF

- Helps you implement INSPIRE
- Provides Tools and Training
- Contributes to unavoidable costs
- Improves the **QUALITY** of your data and services;
- Opens your data and services to new markets
- Satisfies EC programme requirements e.g. **Copernicus RDA** and **Eurostat's requirements**
- Provides your contribution to **UN-GGIM** and the post 2015 Sustainable Development Agenda
