- ▶ REFIT: Public sector information: Review of Directive 2013/37/EU on the re -use of public sector information will create opportunities to open up government data for the benefit of society, reduce regulatory costs and simplify the existing legislation (Q2 2018)

# E-government

Tallinn Declaration 06 October 2017

- ▶ This marks a new political commitment at EU level on significant priorities towards ensuring high quality, user-centric digital public services for citizens and seamless cross-border public services for businesses.
- ▶ The Member States reaffirmed their commitment to progress in linking up their public eServices and implement the eIDAS regulation and the once-only principle in order to provide efficient and secure digital public services that will make citizens and businesses lives easier.
- ▶ The new [European Interoperability Framework](#) (EIF) prepared by the Interoperability Unit of the Directorate-General for Informatics (DG DIGIT), a document providing **47 recommendations for modernising the delivery of public services** nationally and across borders, has been included as a roadmap to the digitalisation of public administrations in the Ministerial Declaration on e-Government.
