

# Agency for Data Supply and Efficiency

Kristian Møller  
Director General

# The value of data?

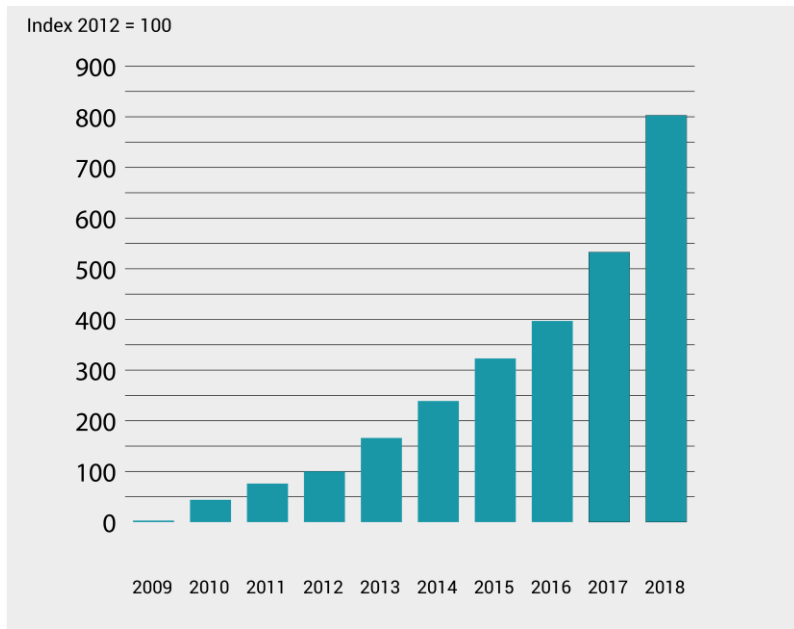

Data; the "non-rival" good where quality increase with use

42% of EU value from data is from geospatial data

80% of information and law has a geographic component

# Development in Geodata Usage

**Data Distribution**

Changes from 2012 to 2016	
Unique users	+ 75 times
Data use	+ 4 times
Value of geodata	+ 2 times

**Development over Time**

# Economic Value from Geodata

**Efficiency improvements:** Cost savings from the use of open geodata

- 60% of public organisations experience greater efficiency. Up from 12% in 2012

**Production improvements:** Production and services based on open geodata

- Over 50% expect that geodata will improve their innovation. Up from 25% in 2012

# Value to society from Private Sector Use
