

Eurogeographics strategy: vision from non-EU member

Dmytro Makarenko
State Service of Ukraine for Geodesy, Cartography and Cadastre

06-09 of October 2019, Manchester, UK

LAND.GOV.UA

KEY FUNCTIONS & RESPONSIBILITY:

Topography, Geodesy, Mapping

State Land Cadastre

Spatial Data Infrastructure

Land Market & Land Protection

Control for Land Use

Administrative Services

Cabinet of Ministers of Ukraine

**Ministry of Economy, Trade
and Agriculture**

Minister

**State Service of Ukraine
for Geodesy, Cartography and
Cadastre**

25 regional offices (in each oblast)

10 000 + employees all over the country

55 state enterprises on mapping and land management

Kartverket

“Vacuum” in geospatial information management

Competitive Environment

Authoritative data VS other data sources

Advantage of Public Sector

Geospatial Data VS Open Data

Geo-data are not included to the Open Data List

What are geospatial triggers?

No identified clear benefits for each sector of economy

Do Open data include Geospatial Data?

**Yes
No**

Is there a “conflict” between authoritative data and other sources?

Yes. Frequent requests to correct data from other sources. Cooperation is established
No. Authoritative data are more detailed, precise and have better resolution

Are benefits for all spheres defined ?

There are only working draft and papers. No clear indicators defined.
No clear indicators. The capacity and work in this domain is not sufficient.

What is the role of Eurogeographics for the organization ?

Trigger for improvement of data quality and standards at national level
Networking & Representation
Support in promotion of the “geospatial voice” on the national level

Vision for Strategy of Eurogeographics

Huge work “behind the scene”

**Not only for the “political” Europe, but
“geographical” one**

Equal involvement of members

**Encouraging regions of Europe to be
involved**

Clear membership benefits

**To make the geospatial community voice
heard**

Towards pan-European data set

**Rethinking about the “open data” approach
and geographical information**

ДЕРЖГЕОКАДАСТР

**Collectively – we are stronger...
Thank you!**

Dmytro Makarenko
