

An aerial photograph of a city roundabout with a central green space. The roundabout has a central green area with a winding path and several small circular features. The surrounding urban area includes various buildings, streets, and parked cars. A white wireframe overlay is visible on the right side of the image, consisting of a series of interconnected lines forming a geometric pattern over the buildings and roads.

New Product Strategy Progress – User Meeting 08-06-2022

- Introduction
- Update proces
- Questions via Slido
