## **Data Production 2021**

- Some countries are now working on the latest corrections.
- Data quality; Very good!
- Data assembly will start shortly
- Some countries delivered features on border...next year please without.

## ERM Validator

- Very happy with the tool.
- Feedback on check T082
- No further problems.

## Production 2022

No problems yet for next production year....

## Questions to BKG and Angela

Jarmila:

1. Is possible to insert a picture in the validation form on PMS platform?
2. Is possible to extend a space in a box for a producer comment in the validation form on PMS platform?

## Group Picture!!!
