Property taxation ¿some news?

Recurrent taxes on real estate property have attracted increasing attention from policy makers

> **because in many countries they offer a potential source for increasing revenue,**
>
> **while at the same time they are considered to be the least detrimental to economic growth given the immobility of the tax base.**

Importance of an updated cadastre

Importance of frequent re-evaluations to follow the market values

Core immovable property vocabulary for European linked land administration

Last January has been published

> **The Core Immovable Property Vocabulary, as an extension to the e-Government Core Vocabularies (version 1·0) issued recently by the European Commission (EC).**

> **The Core Immovable Property Vocabulary is developed by simplifying and capturing the minimal characteristics of complex domain standards and data specifications**

Shall we studied what this is?
EG must participate?,
NMCA should be informed?
